Frontend Web Developer | Mechatronics Engineer

CAREER OBJECTIVE

My objective is to pursue a career in Web development where I can design, develop, and optimize functional and attractive websites and web applications. I aim to contribute to innovative projects that integrate frontend design.

EDUCATION

- Bachelor's of Mechatronics Engineering   *2023-2027*
  National University of Sciences and Technology (*NUST CEME*)

- Website development course   *2022*
  E-Rising Trainers (ERT)

- Fsc Pre-Engineering   *2021-2023*
  Punjab group of Colleges (*Pgc*)

EXPERIENCES

NUST CEME   **Islamabad, Pakistan**
Web application   *2025(Ongoing)*
- Built react based Crime Control Robot Dashboard.
- Developed MQTT based backend system for wireless connection.
- Integrated React application with robot operating system.

Zapply, (An Abroad based Startup)   **Remote**
Web App Developer Intern   June *2025– August 2025*
- Developed Job application tracking, matching and scraping systems.
- Built Chrome extensions for Autofilling job applications.

Green AI, Green Cabin (PMAS Arid)   **Rawalpindi, Pakistan**
Mechatronics Intern   *July 2025–August 2025*
- Worked in controlled Green Cabin system.
- Roles: Agriculture enigeerning, Cad designing.

Developer's Hub Corporation   **Virtual/Remote**
Fronted Developer Intern   *Dec 2024–Feb 2025*
- Developing Ecommerce platforms.
- Converting Figma designs into functional websites.

Personal Projects   **Sgd, Pakistan**
Fronted Development   *2022– 2025*
- Developed various websites and web applications.

PROJECTS
- Frontend Dashboard for Crime Control Robot with fast api server. https://crimecontrol-robot.vercel.app
- "EdgeBoard" A cloud-based admin and user dashboard built with Next.js. https://edge-board.vercel.app/
- "Rendering-Everywhere" Demonstrates SSG, SSR and ISR. https://rendering-everywhere.vercel.app/
- Portfolio website. https://web-heist.github.io/My-Portfolio/
- "Text Operator" for various manipulations to text. https://web-heist.github.io/Text-Operator/
- Job Listing Tracker + Chrome Extension for saving info. https://github.com/Web-Heist
- Jobs & Resumes Matching Server using fuzzywuzzy and gemini api. https://github.com/Web-Heist
- Job Scraper (fetch jobs from multiple sources). https://github.com/Web-Heist
- Chrome Autofill Extension (speeds up the job application process.). https://github.com/Web-Heist
- Kids friendly Circuit Builder Application using C++.
- "anything.com" Website where people can share their own content such as their writings, theories and even their ideas. https://anything.kesug.com
- "Gamers Matters" Gamers can publish their game plays and tutorials. https://gamersmatters.rf.gd
- Ecommerce Websites from figma designs

SKILLS
- Html / Css / Bootstrap / JavaScript / TypeScript / Tailwind
- React.js / Next.js / Nextauth / Prisma ORM/ PostgreSQL
- Backend Servers, Api development, Database and Contentmanagement
- WordPress + Elementor / Figma Conversion
- Chrome Extension Building
- Web Interface designing and Animations
- Assembly lang / C++ / Object oriented programming
- Git/Github / Vscode / Vercel / Keil
- Creativity

Interest
- Web development
- Robotics
- Football and Video games
